**NET PROCEEDS GO TO THE
ALZHEIMER SOCIETY**

Last year alone, more than 4,500 people in Manitoba developed dementia bringing the total to over 20,000 Manitobans living with the disease. The Alzheimer Societies goal is to provide consistent, quality programs and services to each and every person affected and to fund world class research to find a cure. Won't you help?

There Counting on Us !

We're Counting on You !
